#### CLEARANCE PROCEDURES

The clearance procedures listed below, which are in no way an exhaustive list of all situations, have been produced as a guide to ensure that the production you are seeking insurance for is subject to all necessary clearances and checks in order to avoid any potential litigation.

You should consult with your lawyer what the clearance procedures entail and ensure that both you and your lawyer monitor all aspects of the making of the production as well as the clearance of all third party contributions through to the final cut.

- 1. Any script prior to filming must be reviewed by a lawyer to determine whether there is any defamatory content or potential for a claim to arise.
- 2. All clearances, licenses and consents must be obtained from all contributing third parties where necessary, for all literary work contained in the production. Any limitations or reservations must be advised to insurers. Where a completed production is being acquired, all rights must still be secured and the origin of the production traced in order to ensure all rights have been obtained. Any excerpts which constitute "fair usage" must be cleared and brought to the attention of Insurers.
- 3. All contributors i.e. creators, authors, writers, owners of any contributing material including quotations, film clips, music, featured copyrighted props must have a written agreement with you which gives authority to you to use their material in the Insured production. You must also have acquired all rights necessary to distribute the production in all forms of media.
- 4. Releases must also allow you to edit, add and/or delete material and make any changes to the production that you deem appropriate.
- 5. Any fictional character names, names of businesses, organisations or products should be checked to avoid accidental identification.
- 6. Any content which is potentially defamatory or legally contentious must be reviewed and cleared by a libel lawyer with any changes adhered to.
- 7. All rights relative to synchronisation and performance of music must be obtained from copyright owners for use in the Insured production. Any recordings and the use of previously recorded music must also be cleared as new synchronisation and performance licenses may be necessary.
- 8. All origins of the work should be ascertained. A process should be in place to deal with any unsolicited ideas, formats, material or storylines received from third parties which show similarities to your own production.
- 9. Any problems relating to clearance or gaps in respect of underlying rights must be advised to Insurers at the outset or at such time when you become aware.
